It’s not unusual to experiment with different eating habits, for example you may have decided to become a vegetarian or tried changing your diet _____ your health. However, some eating patterns can be damaging.

Problems with food can begin _____ it is used to cope with painful situations or feelings, or to relieve stress perhaps without you even _____ it. If this is how you deal with emotions and feelings and you are unhappy about it, then you should try to ask someone you trust _____ not to bottle things up—this is not helpful to you or other people around you, it won’t make you feel any better and the problem is unlikely to go away.
It is unlikely that an eating disorder will result from a single cause. It is more likely to be a combination of many factors, events, feelings or pressures. Anyone can develop an eating disorder, \( \text{(31)} \) age, sex, cultural or racial background, \( \text{(32)} \) the people most likely to be affected tend to be young women, particularly between the ages of 15 and 25. Research has shown that your genetic make-up may have a small impact upon \( \text{(33)} \) you develop an eating disorder.

Americans log an average of five hours in front of their TV sets each day, and researchers say that's enough to send them to an early grave. A new study finds that for every two hours of television per day, a viewer's risk of an early death \( \text{(34)} \) by 13 percent. \( \text{(35)} \) a look at the ways you're taking your life in your hands when you turn on the TV:

1. It causes sleeplessness
   Watching TV before dozing off is one of the major causes of sleep deprivation, a condition that bothers one \( \text{(36)} \) three people and is linked to increased risk of obesity, heart disease, and depression.

2. We become too attached
   During the 2007 TV writers' strike, when scripted series went off-air for several months, some college students reported feeling "real distress" over the loss of new episodes of their favorite shows. The "anguish" is comparable to the trauma of a romantic breakup, \( \text{(37)} \) many people watch TV for companionship. And bad breakups can lead to depression.

3. \( \text{(38)} \)
   While educational programs can make older preschoolers smarter, that screen might just be doing the opposite for kids under age 2. The \( \text{(39)} \) two years of a child's life are a critical time in brain development, and TV time takes away from play, exploring, and other activities essential to normal growth. Too much TV in infancy is linked to slow language, cognitive, and attention development.

I (40) a cab driver, a trucker, an electrician's gofer, a substitute teacher, and a traveling salesman, before I became a cook. But I was married, with a newborn child. My lifelong sense that I would "become" a writer wasn't working out.

When the baby arrived, everything changed. My wife was typically busy and tired, and she soon began medical school. It was clearly incumbent upon me, (41) easier and more sensible, to lighten household burdens rather than try to nurse the newborn. So I volunteered to take over the kitchen. There was urgency and (42)—there was no way around it. My need to develop a career and to get dinner on the table combined to turn me from an amateur gourmet into a cook and (43) food writer.

Reading Comprehension 14%
Choose the best answer to the questions based on the information provided or implied in the passages.

Passage 1

Wikipedia, an online encyclopedia compiled by a distributed network of volunteers, has often come under attack by academics as being shoddy and full of inaccuracies. Even Wikipedia's founder, Jimmy Wales, says he wants to get the message out to college students that they shouldn't use it for class projects or serious research.

Speaking at a conference at the University of Pennsylvania on Friday called "The Hyperlinked Society," Mr. Wales said that he gets about 10 e-mail messages a week from students who complain that Wikipedia has gotten them into academic hot water. "They say, 'Please help me. I got an F on my paper because I cited Wikipedia and the information turned out to be wrong,'" he says. But he said he has no sympathy for their troubles, noting that he thinks to himself: "For God's sake, you're in college; don't cite the encyclopedia."

Mr. Wales said that leaders of Wikipedia have considered putting together a fact sheet that professors could give out to students explaining what Wikipedia is and that it is not always a definitive source. "It is pretty
good, but you have to be careful with it," he said. "It's good enough knowledge, depending on what your purpose is."

In an interview, Mr. Wales said that Wikipedia is ideal for many uses. If you are reading a novel that mentions the Battle of the Bulge, for instance, you could use Wikipedia to get a quick basic overview of the historical event to understand the context. But students writing a paper about the battle should hit the history books.

(from The Chronicle of Higher Education)

44. Which of the following is true?
A. Students often write to Wales to express their appreciation and admiration.
B. Wales apologizes to college students when they complain about the inaccuracies in Wikipedia.
C. Wales wants to send professors a fact sheet to defend Wikipedia.
D. Wales thinks that, though Wikipedia is a good source of knowledge, it has limited use.

45. According to Wales, college students can consult Wikipedia when they ______.
A. write research papers    B. do class projects  C. look up quick facts
D. all of the above

46. What does “get into hot water” in the second paragraph probably mean?
A. get into trouble    B. get a high grade    C. need technical support
D. forget to do something

Passage 2

British ministers are shelving a scheme devised under Labour to widen the availability of free school meals to more low income families. The scheme, due to start this September, could have given free meals to 500,000 more families. Labour had underestimated how much the scheme would cost over three years, he said, by nearly £200m.

The public is outraged. Imran Hussain from the Child Poverty Action Group said: "Suspending this support is the same as an income-tax hike of £600 a year for a working poor family with two children."

The Mayor of Newham, where a free school meals pilot began last September, says the scrapping of plans to extend the scheme to other districts is "short-sighted." The mayor, Sir Robin Wales, urged the government to reconsider: "Our pilot means we can make a huge difference to the lives of our pupils and our families, particularly those working hard but struggling to pay basic bills and get some of the most deprived young people in the country healthy."

(adapted from BBC)

47. From the passage, we can infer that ______.
A. the children of some low income families, such as those in Newham, already enjoy free school meals
B. the existing plan started in September and has provided a total of 500,000 families with free school meals
C. the total cost of the old plan was two hundred million pounds
D. Labour thinks that the price tag of £200m for this kind of scheme is quite a bargain

48. “Labour” in the first paragraph means _____.
A. the working class  B. the labour movement
C. a labour camp  D. the British government formed by the Labour Party

49. Hussain is not implying that _____.
A. the working poor family will be seriously affected by the suspended support
B. for a family with two children, the free meal scheme would save them £600 a year
C. because the government should pay for the meals but will not, it is like asking the struggling working class family to pay £600 to the government
D. the government will pay each working class family £600 to make up for the free meal benefit they lose

50. Sir Robin Wales is not saying that _____.
A. the mayor of Newham is short-sighted
B. the test plan to provide free school meals in Newham was very successful
C. the government should carry on with the original plan
D. low income families often have to choose between paying the bills for basic necessities and providing their children with enough food to stay healthy
