國立臺灣大學 109 學年度碩士班招生考試試題

科目:英文(B)

節次: 5

I: Vocabulary (20%)

題號: 9 共 **7** 頁之第 1 頁

注意: 請用 2B 鉛筆作答於答案卡,並先詳閱答案卡上之「畫記說明」。

Cho	ose the word that best completes the sentence.
1.	Many Brexit supporters say it is hard to accurately predict what will happen, or believe any
	economic will be short-term and minor.
	(A) disruption (B) dissection (C) disinfection (D) dissimulation
2.	Recent studies showed that differences in male and female height were related to life
	expectancy. For example, men were found to be 7.8% taller and had an 8.4% lower life expectancy.
	(A) inversely (B) inadequately (C) intentionally (D) insufficiently
3.	The cost of hosting a major sporting event can be quite high, so the host country would have to
	raise a significant amount of tax
	(A) exile (B) reform (C) revenue (D) expenditure
4.	New evidence has recently been found to the DNA damage theory of aging.
••	(A) corrugate (B) confiscate (C) corroborate (D) commemorate
5	The government-funded flu vaccination program aims to vaccinate those who are at great risk of
٦.	flu and its serious to prevent the virus spreading.
	(A) computations (B) commutations (C) competitions (D) complications
6.	This bomb attack will the already tense relations between the two neighboring
•	countries.
	(A) delineate (B) exacerbate (C) contaminate (D) interrogate
7.	Business success demands more than hard work, and expertise in your field. You
, .	also need to master a set of soft skills in order to succeed.
	(A) residue (B) resilience (C) resemblance (D) reminiscence
8.	Cigarette smoking has a proven effect on nearly every organ of the body, raising
•	the risk of several serious health conditions.
	(A) deceptive (B) deliberate (C) deferential (D) detrimental
9.	The reasons for the Amazon rainforest fires have been by some environmental
,	researchers. Human activity is the main cause of these Amazonian wildfires.
	(A) deployed (B) forfeited (C) elucidated (D) reprimanded
10	Fires devastating Australia's east coast have arrived unusually early this year. It is only just
•	spring and so this may be a(n) sign of more trouble to come.
	(A) ominous (B) credulous (C) scurrilous (D) parsimonious
m	[: Sentence Structure (20%)
C	hoose the best answer that makes the sentence grammatically correct.
1	1. What consumers to choose a particular product with respect to others is a critical market
1	research survey question every marketer should ask.
	(A) drives (B) drives (C) driven (D) driving

Passage 2: Questions 25-28

Education is a basic human right. Increasing access to education can improve the overall health and
longevity of a society, grow economies, and even (25) climate change. (26) in many
developing countries, children living in poverty face many barriers to accessing an education.
One of the cruelest barriers to education is gender. In many countries around the world, girls are
more likely to be excluded from education than boys. Conflict is another obvious barrier to education, and
the scale of its impact is USAID reports that about half of all children not attending school
are living in crisis and conflict zones. An outbreak of a particular disease is also an expected barrier to
education. Even if the student body is healthy, they may be kept out of school if an has hit
their area. All these factors can stall progress to provide quality education.

- (D) execution

Passage 3: Questions 29-32

Over the last decade, the field of cell therapy has expanded rapidly. While some forms of cell therapy, such as hematopoietic stem cell transplantation to treat certain types of cancer, have been known for a while, it has only been in recent years \_\_\_\_\_(29) \_\_\_\_ the field has really started to expand.

Cell therapy holds enormous promise for treating genetic diseases, cancer, and autoimmune disorders. However, there are still some teething problems that need to be \_\_\_\_(30)\_\_\_. Cells are biological material and notoriously unpredictable to grow and transport. Setting up a reliable, consistent and scalable manufacturing system is key to producing cell therapy on a wider scale. If this problem can be cracked, then the issue of excessively high pricing currently \_\_\_\_(31)\_\_\_ a mass rollout might also be at least partly solved. Last but not least, ensuring these therapies are safe for patients and adequately regulated is \_\_\_\_(32)\_\_\_.

- 29.(A) as
- (B) how
- (C) that
- (D) while

- 30.(A) vied for
- (B) counted on
- (C) aspired to
- (D) ironed out

- 31.(A) prevents
- (B) prevented
- (C) preventing
- (D) will prevent

- 32.(A) petulant
- (B) paramount
- (C) prevalent
- (D) penitent

### IV: Reading Comprehension (16%)

Answer the following questions according to the information provided or implied in the articles. Choose the best answer to each question.

#### Article 1: Questions 43-46

How your food is grown or raised can have a major impact on your mental and emotional health as well as the environment. Organic foods often have more beneficial nutrients, such as antioxidants, than their conventionally-grown counterparts. (W) A 2016 European study also shows that organic meat and milk are richer in omega-3 fatty acids.

In addition, organic food is often fresher because it doesn't contain preservatives that make it last longer. Organic produce is often (but not always) produced on smaller farms near where it is sold. Besides, organic produce contains fewer chemical pesticides which are widely used in conventional agriculture. So it is better for nearby birds and animals as well as people who live close to farms.

(X) In fact, organic farming is better for the environment. Organic farming practices reduce pollution, conserve water, reduce soil erosion, increase soil fertility, and use less energy. (Y)

Organic food is also GMO-free. Genetically Modified Organisms (GMOs) or genetically engineered (GE) foods are plants whose DNA has been altered in ways that cannot occur in nature, most commonly in order to be resistant to pesticides. Furthermore, organically raised animals are not given antibiotics or growth hormones. \_\_\_\_(Z)\_\_\_ Even though organic food typically costs more, these advantages might convince you that it's worth the extra expense.

- 43. Which of the following would be the best title for this article?
  - (A) Benefits of organic food
  - (B) Misconceptions about organic food
  - (C) Rules for certifying organic products
  - (D) Factors influencing organic food purchase intention
- 44. According to this article, which of the following statements about organic food is TRUE?
  - (A) Non-GMO food is certified organic food.
  - (B) Organic food is tastier, cheaper and fresher.
  - (C) Conventional farming practices help to preserve the environment.
  - (D) Organic food often contains more helpful nutrients than conventional food.
- 45. At which place in the article would the following sentence best be inserted?
  - "They are given more space to move around and access to the outdoors, which help to keep them healthy."
  - (A) The place marked by W
  - (B) The place marked by X
  - (C) The place marked by Y
  - (D) The place marked by Z

46. What is the author's attitude towards organic food?

- (A) Skeptical
- (B) Supportive
- (C) Disapproving
- (D) Disappointed

### Article 2: Questions 47-50

Technology is the center of the entertainment industry. With recent technological advancements in the entertainment industry, companies are forced to change the way they produce, distribute, and broadcast content. Today, shows and movies are streamed on devices ranging from smartphones to televisions. Instead of families gathering in the living room to watch their favorite television programs, each watches their favorite shows on one of their many devices. The popularity of streaming from mobile-devices reflects smartphones becoming larger, with more saturated screens.

Streaming is at the forefront of the entertainment industry. Entertainment can be streamed anytime and anywhere. Consumers can choose what they want to watch, without the constraint of broadcast television schedules. Inexpensive monthly subscriptions give customers access to libraries of thousands of TV shows and movies, available instantly. A study by the Consumer Technology Association reports that people aged 18-34 spend 55 percent of their video-watching-time viewing content after it has aired on live television.

Netflix launched its streaming service in 2007, altering at-home entertainment. It's estimated that Netflix represents around 6% of current American TV viewing. That number is projected to rise to around 14% by 2020, according to Fortune magazine. Disney is set to launch its own streaming app in 2018. Many experts believe that other studios will follow shortly.

Streaming services introduced fans to entire TV catalogues, leading to <u>binge-watching</u>. Shows are now catered specifically to binge-watchers. Todays' shows have a season-long narrative rather than single stories in each episode. On Netflix, whole seasons of shows are released at once, obviously intended for binge-watching.

News and sports are cable's biggest selling advantages. Consumers may not cancel their cable subscription simply to follow their favorite team or to keep current with the news. Disney, the parent company of ESPN, plans to start an ESPN streaming service.

The changes and advancements in entertainment have created expectations for on-demand, and often commercial-free, access to video content. Any players in the industry are racing to keep up with the competition. It wouldn't be surprising if some companies are edged out in the near future.

- 47. What is this article mainly about?
  - (A) The impact of streaming video
  - (B) The pros and cons of streaming video
  - (C) How to create a video streaming website
  - (D) How the streaming service helps family relationships

題號: 9 國立臺灣大學 109 學年度碩士班招生考試試題

共 7 頁之第 7 頁

48. According to this article, which of the following statements about streaming is TRUE?

- (A) Streaming services can help to bring the family together.
- (B) The rise of streaming has increased the sales of smartphones.
- (C) Cost and convenience are the main reasons why people use streaming services.
- (D) Many people cut the cable cord to watch news and sports through online streaming services.
- 49. Which of the following is the primary meaning of the underlined word "binge-watching" as it is used in the fourth paragraph?
  - (A) Keeping an eye on different types of TV shows
  - (B) Spending a lot of money on watching TV shows
  - (C) Subscribing to many live TV streaming services at a time
  - (D) Viewing successive episodes of a single TV series in one sitting
- 50. What is implied in this article?
  - (A) Disney offers vast amounts of live news and sports.
  - (B) There will be more newcomers to the streaming business.
  - (C) Live streaming video viewers prefer smaller-screened phones.
  - (D) Middle-aged and elderly people spend a lot of time watching shows online.
