- Biden doubled down on rhetoric expressing that NATO is sacred, instead of adding more pressure on the EU, in general, and Germany, in particular, to re-arm, as the previous administration did. Added to that is ideological dogmatism. A deepened European political and defense relationship will only be enhanced when Europe has fixed borders—not ever-expanding frontiers. ...Ultimately, no amount of added expenditure would offset the unsustainable grand strategy of providing security across the globe, especially with rich allies freeriding.
- 根據上文所言，NATO 目前發展所遇到的困境是什麼？（10%）美國又該如何處理這個問題呢？（15%）
